Pharmacy Residency Program

Overview
Pharmacists at Baptist Health Medical Center-North Little Rock work with the entire health-care team each day (physicians, nursing, respiratory therapists, case coordinators, social workers, etc.) to ensure positive patient outcomes. Our clinical pharmacists are extensively involved in the development, refinement, implementation, and delivery of quality care to all inpatients and outpatients, offering services such as pharmacokinetic dosing and monitoring, anticoagulation ordering and monitoring, core measure compliance, total parenteral nutrition orders and monitoring, and antibiotic stewardship.

Purpose
PGY1 pharmacy residency programs build on Doctor of Pharmacy (Pharm.D) education and outcomes to contribute to the development of clinical pharmacists responsible for medication related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY2) pharmacy residency training.

Benefits
• Competitive stipend and healthcare benefits
• Paid vacation and sick days
• Membership reimbursement for APA, AAHP, and ASHP
• Travel reimbursement for AAHP Fall Seminar, ASHP Midyear Clinical Meeting, and Midsouth Regional Residency Conference
• On-site Fitness Center

Opportunities for Learning
• Complete the teaching certificate program at the University of Arkansas for Medical Sciences
• Obtain ACLS certification and participate in the management of medical emergencies
• Serve as a preceptor to pharmacy students from Harding University and the University of Arkansas for Medical Sciences
• Provide at least two hours of live continuing education for pharmacy staff
• Participate in Pharmacy and Therapeutics Committee and Quality Assurance Committee, as well as other management-level task forces and committees
• Provide clinical staffing one evening each week and every fourth weekend
• Completion of an original research project, with presentation at a regional residency conference
• Participate in a free clinic monthly

Qualifications of Applicants
Appointment to the residency position is contingent upon the satisfaction of the following eligibility requirements:
• Graduate of ACPE-accredited Doctor of Pharmacy degree program
• Arkansas licensure before July 31 of graduation year
• Successful completion of required employment physical, drug/nicotine screen, and background check

Required Experiences:
• Cardiology
• Clinical Staffing
• Critical Care
• Geriatrics
• Infectious Diseases
• Informatics
• Internal Medicine
• Orientation
• Practice Management
• Research Project
• Teaching Certification Program

Elective Experiences:
• Cardiac and Renal Transplant
• Emergency Medicine
• Nephrology
• Neurology
• Oncology
• Rehabilitation Medicine
• Advance study in any required experience

Application Process
Applications will be accepted only through online submission using PhorCAS, ASHP's centralized application site.

Applicants will be evaluated using the following criteria:
1. Academic performance, exhibited from a copy of the most recent graduate college transcript.
2. Achievement of appropriate knowledge, skills, and attitude to successfully complete the outcomes of the BHMC-NLR pharmacy residency program, as outlined in a letter of intent
3. Three references from prior employers and educators
4. On-site interview

All application materials must be received by January 1. Candidates will be contacted for interviews in February. BHMC-NLR participates in the National Match Service to choose its resident, so applicants must be registered for the Match. This residency site agrees that no person at this site will solicit, accept, or use any ranking-related information from any residency applicant.
