MyChart Test Results

All lab test results, including COVID, are released immediately, except STDs, HIV, HTLV, QUAD that are delayed 72 hours to allow your physician's office to contact you. All imaging tests results are delayed 36 hours, except Screening Mammos that are released immediately. Pathology results are delayed 7 days.
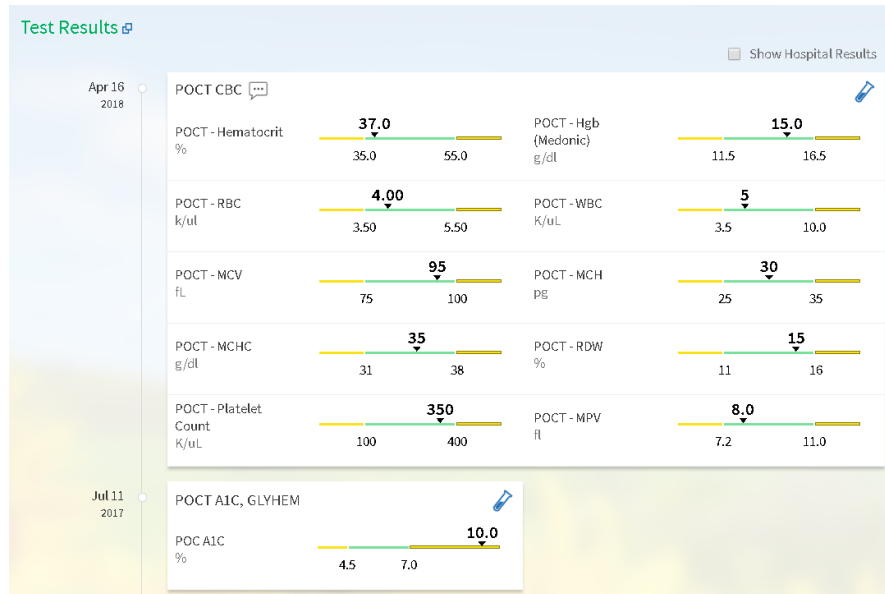

1. Go to **Test Results** across top menu.

2. Select the test to view details, including reference range and any result comments added by provider. If results from your recent hospital stay are not visible, select the Show Hospital Results check box.
