

Labor & Delivery Parking

When you arrive on the Baptist Health-Little Rock campus, you will find convenient and free parking at the front of our hospital north of the main entrance. These parking spots are marked with pink paint and signage. Please enter through the hospital main entrance and proceed to the screening station. Once screening has been completed, please go to the 2nd floor where you will be greeted and helped with the check-in process.

Once your loved one is settled in their room, we do request that you return and move your vehicle to the main parking lot to save these slots for the other patients who will be arriving.
