

MyChart Test Results

All lab test results, including COVID, are released immediately, except STDs, HIV, HTLV, QUAD, and pathology that are delayed 72 hours to allow your physician's office to contact you. All imaging tests results are released immediately.

1. Go to **Test Results** across the top menu.
2. Select the test to view details, including reference range and any result comments added by the provider. If results from your recent hospital stay are not visible, select the Show Hospital Results check box.

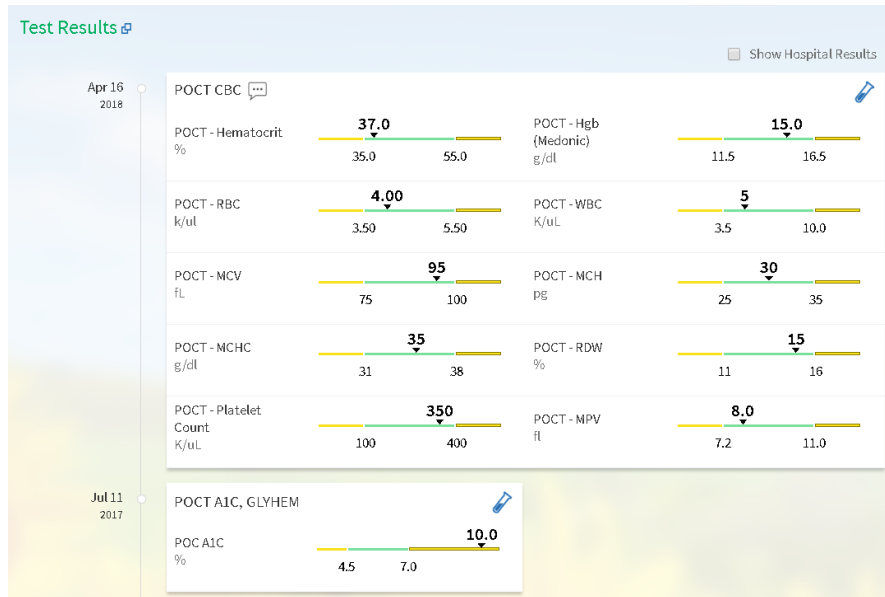

The screenshot shows the 'Test Results' page in MyChart. At the top, there is a search bar labeled 'Search this list' and a checked checkbox for 'Show Hospital Results'. Below this is a table with columns for 'Test', 'Ordered By', and 'Date'. The table contains ten rows of test results, each with a small icon representing the test type.
