Policy Number: PR-02-0002	Replaces: Non-Retaliation
Authorized by: Corporate Compliance Committee	

Purpose

Baptist Health recognizes that a critical aspect of its compliance program is the establishment of a culture that promotes prevention, detection and resolution of instances of conduct that do not conform to federal, state and private payor health care program requirements, as well as the organization's ethical and business policies. To promote this culture, Baptist Health established a strict non-retaliation policy to protect employees and others who report problems and concerns in good faith from retaliation.

Policy

1. All employees have a duty and responsibility for reporting perceived misconduct, including actual or potential violations of laws, regulations, policies, procedures or the Baptist Health Code of Ethical Conduct.
2. An "open-door policy" will be maintained at all levels of management to encourage employees to report problems and concerns.
3. Employees are encouraged to utilize the Compliance Line. To ensure their protection against retaliation, callers may remain anonymous.
4. Employees may also communicate with the Human Resources Department (HR) if their problem or concern is not resolved.
5. Any form of retaliation against any employee who reports a perceived problem or concern in good faith is strictly prohibited.
